

# Phantasy UPDATE

January 21, 2010

## TURNING BACK THE CLOCK

At 6:30 last night 143 baseball fans crossed over from reality to Phantasy. For the next few days they will live the lives of Major Leaguers, experiencing what it's like to wear a big league uniform, play on big league fields, and recall what it was like when the highlight of their day was riding their bikes home from school, grabbing their gloves and bats, and playing a baseball game. During the Players Meeting, the rookies learned the ropes from Larry Andersen. If anyone takes the field without a jock, it won't be L.A.'s fault.

This is the tenth year for Phantasy Camp, and while many campers have made the annual trip to Clearwater, only two have been to all ten. Joe Polovoy, a veteran lefthander, and rock solid backstop Luis Liceaga. To mark their longevity, each was surprised to learn that they would receive a commemorative Phantasy Camp Ring.

With the players meeting behind them, the rookies will join the vets tomorrow, living their Phantasy. Time again to turn back the clock to bicycles and baseball.

## ORDER IN THE COURT

Don't forget about the first day of Kangaroo Court. The gavel will come down this morning under the tent at Bright House Field.

Commissioner Larry Andersen will no doubt have a few choice words to say about anyone who has dared to cross the baseball gods. It's always a race to see who will be served first, L.A. or justice. Remember it's no crime to "rat out" a fellow camper.

## MITCH FIRES AT SARGE

One of the highlights of last night came as Mitch Williams took a shot at Gary Matthews. The Sarge walked in looking like he had just played Augusta National with his old golfing buddy from Chicago, President Barrack Obama. Sarge's wardrobe included an argyle sweater and hat turned backwards. The Wild Thing said Sarge looked like Erkle.

## BACKSTOP'S RETURN

Phantasy Camp welcomes the two new legends both catchers. Bob Boone and Keith Moreland.
